- 2) Weight to volume ratio is based on the greater of 1000 kgs equal to 2 cubic metres. L x W x H metres divided by 0.002.
- 3) All cargo must be clearly labelled and correctly packed for road transport.
- 4) As all cargo is transported, handled and warehoused at OWNERS RISK we would advise that customers make their own arrangements for insurance cover, which should include the risk of hi-jack.
